

FMUSER FUQ-3514B Modulator Dual DVB-ASI-SMPTE-310 Inputs RF Output 50-860MHz ATSC A-53 8-VSB Modulation Adaptive DPD IP Remote Control for ATSC Broadcasting and Set-top Box Testing **Product Overview**

The FMUSER FUQ-3514F modulator processes dual-channel DVB-ASI and SMPTE-310 inputs, delivering RF output from 50MHz to 860MHz. It employs ATSC 8-VSB modulation compliant with ATSC A/53 standard. Features adaptive digital pre-distortion (DPD) and remote control via IP and front panel. Ideal for ATSC broadcasting networks and set-top box testing applications.

Key feature

Supports ATSC A/53 compliance for reliable digital broadcasting.

Features dual-channel DVB-ASI/SMPTE-310 inputs with automatic switch-over.

Delivers RF output from 50MHz to 860MHz with 1Hz stepping.

Integrates adaptive digital pre-distortion (DPD) for signal optimization.

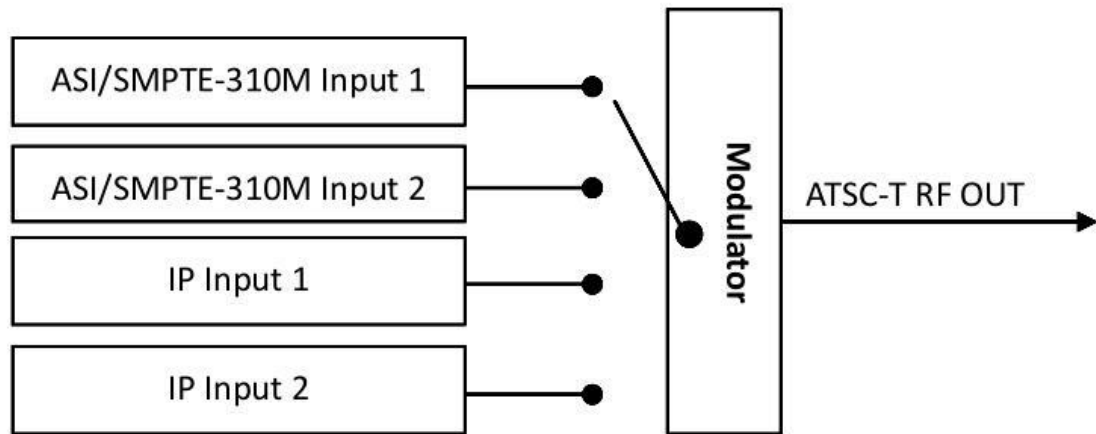

Enables remote control via IP and front panel for monitoring and upgrades.

Specifications

Input	Input	Self-adapted 2 Asi/SMPTE 310M input 2 ASI ports input, one for hot backup, BNC interface
Input	Input	Dual IP input ports, one for hot backup , over UDP/RTP, Unicast/Multicast, GE ports
Input	Input	1 channel 10MHz reference clock input

Modulation	Standard	ATSC A/53
Modulation	Constellation	8VSB
Modulation	Bandwidth	6 MHz
Modulation	FEC	RS(208 188)+Trellis
RF output	Port	N Type, 50Ω impedance
RF output	RF range	50~860Mhz,1Hz stepping
RF output	Output Level ATT	-20dBm~6dBm,0.1dB stepping
RF output	Shoulder Level	60dB
RF output	MER	≥ 40dB
DPD	Non-linear DPD	over 10dB ACPR improvement (normally)
DPD	linear DPD	over 10dB non-flatness adjustment(normally)
System	System	LCD display & keyboard operation, NMS, Chinese & English operation display
System	System	Software upgraded through network
General	Demission(WxLxH)	482mm×455mm×44.5mm
General	Weight	6.0kg
General	Temperature	0~45■(operation),-20~80■(storage)
General	Power Supply	AC 110V±10%,50/60Hz or AC 220V±10%, 50/60Hz
General	Consumption	25W

Principle chart

About Us

FMUSER is a company specializing in broadcasting and television transmission systems and integrating hotel IPTV systems. The company was established in 2009 and has served over 180 countries worldwide. More than 20,000 television stations, radio stations, and hotel clients from different.
