

FMUSER FUQ-4216B ISDB-T Dual Multiplexer 12 ASI Inputs 2 IP UDP Outputs PSI-SI Editing PCR Adjustment SFN-Ready for Broadcast Headend Product overview

The FUQ-4216B ISDB-T Multiplexer is a dual-channel TS re-multiplexer with 12 ASI inputs and 2 IP outputs over UDP. It processes transport streams by re-multiplexing, editing PSI/SI tables, and generating IIP packets. Supporting remote upgrades and network management, this device is ideal for broadcast headend applications in regions like Japan and South America.

Key feature

Supports dual-channel TS re-multiplexing compliant with ISDB-T/ISDB-Tb standards.

Enables PSI/SI table editing and IIP packet generation.

Features 12 ASI inputs and 2 IP outputs over UDP.

Facilitates SFN operations and hierarchical transmission.

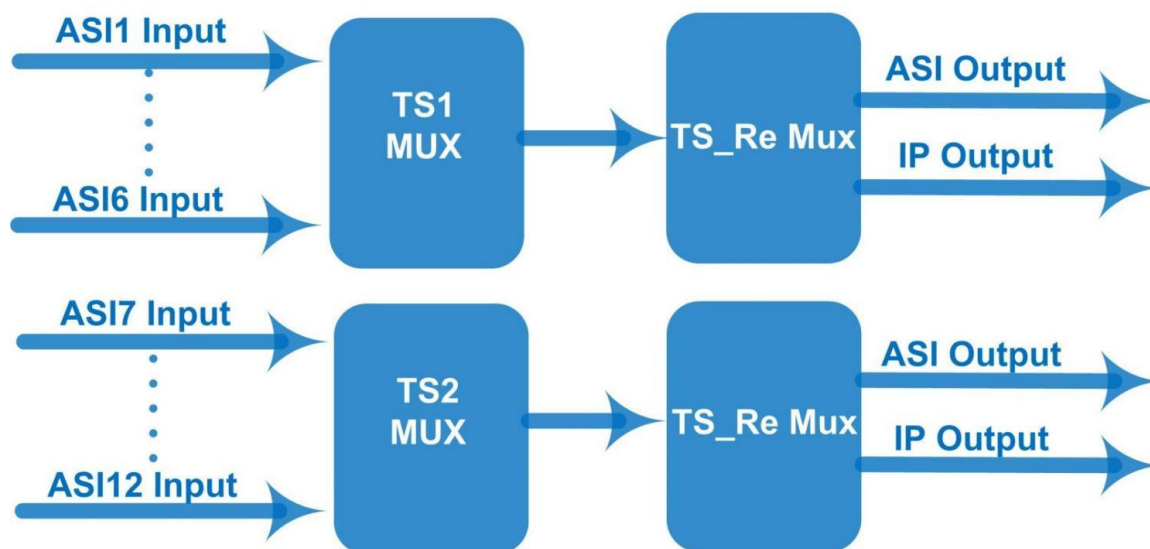

Includes PID filtering/re-mapping and accurate PCR adjusting.

Specifications

Signal inputting	12 ASI input
Signal inputting	188/204Byte transmission stream packet
Signal inputting	TS packet mode and suddenly code rate mode
Signal inputting	GPS 10mhz reference clock inputting
Signal inputting	GPS 1pps signal inputting
Re-multiplexing	2 separate channels TS re-multiplexer
Re-multiplexing	PCR accurate adjusting
Re-multiplexing	PSI/SI table automatically generating
Modulation parameter	mode mode1(2k) mode2(4k) mode3(8k)
Modulation parameter	Guard interval 1/4 1/8 1/16 1/32

Modulation parameter	Coding rate■1/2 2/3 3/4 5/6 7/8
Modulation parameter	constellation■DQPSK QPSK 16QAM 64QAM
Modulation parameter	Layer■A A+B A+B+C
Modulation parameter	Bandwidth: 6MHz 7MHz 8MHz
SFN parameter	Maximum time delay■0ms ■ 1000ms
SFN parameter	Off set■-1000ms ■ +1000ms
SFN parameter	Device ID ■01 ■ 30
Output	2 ASI output(BNC)
Output	2 IP output(UDP protocol)
Output	RS encoding output supporting
Output	GPS 1pps and GPS 10Mhz loop-out(BNC)
General	Demission■44mmx482mmx410mm
General	Temperature■0■45■(operation) -20■80■storage■
General	Power supply■220VAC±10%■50/60Hz■10W

Principle Chart

About Us

FMUSER is a company specializing in broadcasting and television transmission systems and integrating hotel IPTV systems. The company was established in 2009 and has served over 180 countries worldwide. More than 20,000 television stations, radio stations, and hotel clients from different.
